Automated Document Preparation

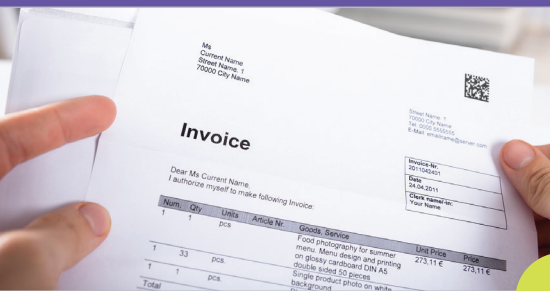

Quadiant's optional document automation software can add significant value by enhancing the formatting, personalisation, grouping, printing, barcoding, and addressing of your documents.

Ensuring every customer's mailing contains the right documents is more important than ever. Selectively pair your folder inserter with document automation and closed loop mailpiece verification software to gain efficiencies in your mailing and communications operation.

Document Control and Security

Quadiant's exclusive CIS scanning device reads 1D Barcodes, 2D Data Matrix and QR codes. With this technology, the inserter control codes can be printed nearly anywhere on the document, providing you greater document layout flexibility and control.

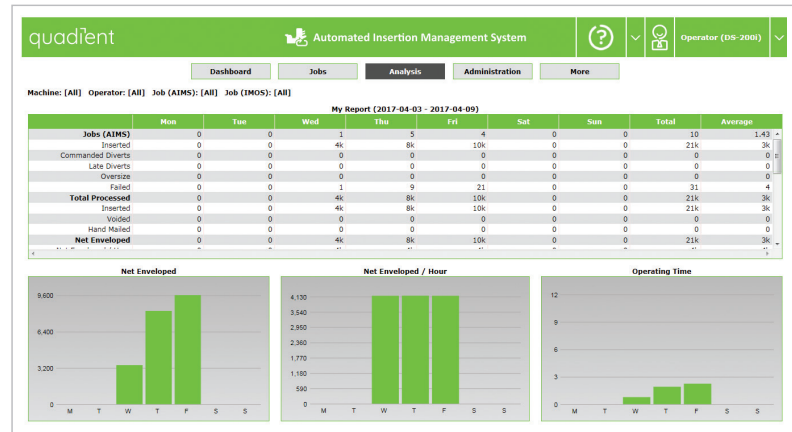

Your Mail Center Assistant

A Flexible Folder Inserter to Automate Document Processing

With the need to identify more efficient and productive approaches to drive business, organisations are always looking for ways to streamline processing of their business critical communications. Ideally suited for businesses that need to automate a wide variety of document sizes and types, the DS-85i folder inserter handles them all with ease. DS-85i comes standard with barcode reading technology to automate variable-page jobs, incorporating another layer of security that ensures the right documents are always sent to the right person. Add Quadiant's powerful document automation and closed loop mailpiece verification software for even greater process optimisation and integrity.

Visibility and Integrity

Businesses today face a multitude of regulatory issues and customer demands to guarantee the integrity of business communications.

The optional closed loop mailpiece verification software extends DS-85i's built-in document security to deliver complete end-to-end process verification. Its verification capability confirms every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Business Impact

Revenue Growth

Maximise opportunities to better communicate with customers

Risk Mitigation

Ensure that every recipient receives the right mail piece

Customer Engagement

Create your own professional looking mail pieces

Expense Control

Maximise productivity thanks to speed and reliability

DS-85i

1. High-Capacity Vertical Stacker

Preserves printing order and holds up to 500 finished envelopes so operators spend less time unloading.

3. Feeder Linking

Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill as needed until your job is complete.

2. Touch Screen Display

7" colour graphical interface makes DS-85i operation simple and intuitive.

4. Envelope Hopper

325-envelope capacity with on-the-fly reloading.

5. Automatic Collator

Collate and fold up to 10 pages together.

SIMPLE AND INTUITIVE

The colour touch screen and automatic job setup make DS-85i exceptionally easy to use. Simply load envelopes and documents and the DS-85i will adjust all settings automatically and even save them to the memory for instant recall.

INTELLIGENT AND PRODUCTIVE

To avoid stoppages and maximise efficiency, the intelliDeck can automatically divert document sets which are more than 10 pages or sets requiring special handling, all while the system is still running.

SPECIFICATIONS

Processing speed	Up to 4,000 envelopes / hour
7" Colour touch screen	Standard
Automatic settings	Standard
FlexFeed multi-format feeder	Standard
Multi-sheet feeding	Standard
Cascade from all feeder	Standard
Document and insert feeders	Up to 6
